Main research field: Life and Health Sciences

Sub research field: Biomaterials and Nanotechnology

1. The Board of Directors of REQUIMTE – Rede de Química e Tecnologia – Associação, has decided to open an international call for positions of PhD holder Researchers, under a work contract for a non-fixed term. This announcement is intended to 1 (one) research position (**Reference REQUIMTE 2019-43**) on the project PTDC/MEC-DER/32610/2017 - A nanotechnological approach for topical administration of insulin for wound healing, supported by national funds by FCT / MCTES and co-supported by Fundo Europeu de Desenvolvimento Regional (FEDER) throughout COMPETE 2020 – Programa Operacional Competitividade e Internacionalização (POCI-01-0145-FEDER-032610), to pursue scientific research activities in the area of Life and Health Sciences, scientific sub-area of Biomaterials and Nanotechnology, under a fixed term contract of employment under the Labor Code, in order to accomplish the following functions:

- a) Development and characterization of nanotechnological drug delivery systems for skin wound healing;
- b) Evaluation of the *in vitro* and *in vivo* performance of the drug delivery systems;
- c) Accomplishment of the scientific tasks defined in the project;
- d) Communication of the results in national and international conferences;
- e) Writing of projects and scientific articles for publication in international journals.

2. Applicable Legislation

Decree-Law no. 57/2016 of August 29th, amended by Law 57/2017 and Regulatory Decree No. 11- A / 2017 which approved the doctorate hiring regime destined to stimulate scientific and technological employment for all knowledge areas (RJEC); Portuguese Labour Code, approved by Law 7/2009 of February 12, in its actual form.

3. Pursuant to article 13 of RJEC, the tender selection panel is to be formed by: Pedro Ricardo Martins Lopes da Fonte (Professor Auxiliar, School of Health Sciences and Technologies, Lusófona University; President of the jury by delegation of the Director of REQUIMTE); Catarina Rosado (Professora Associada, School of Health Sciences and Technologies, Lusófona University) e Maria de La Salette de Freitas Fernandes Hipólito Reis Dias Rodrigues (Professor Auxiliar da Faculdade de Farmácia, Universidade do Porto).

4. The workplace shall be at Lusófona University, Lisbon, Portugal.

6. Application can be submitted by any national, foreign and stateless candidate(s) holding a doctorate degree in Pharmaceutical Sciences, Biomedical Engineering, Biomedical Sciences, Biotechnology,

Chemical Engineering and Bioengineering a scientific and professional curriculum whose profile is suited for the activity described below (item 7).

In case the doctorate degree was awarded by a non-Portuguese higher education institution it must comply with the provisions of Decreto-Lei n.º 66/2018, de 16 de Agosto, and all formalities established therein must be complied with at the signature of work contract.

7. The tender admission requirements are those defined in the previous point 6, and specific requirements are:

- a) Experience in the development and characterization of nanotechnological drug delivery systems;
- b) Excellent ability of planning and organization;
- c) Excellent communication skills;
- d) Resilience and capacity to work independently;
- e) Motivation to work in a multidisciplinary team;
- f) Good skills in speaking and writing in English language;
- g) Excellent capacity of writing of scientific papers and projects.

8. Pursuant to article 5 of RJEC, the selection is to be made based on the evaluation of the scientific and curricular career of the candidate.

9. Scientific and curricular career evaluation focuses on relevance, quality and up-to-datedness:

- a) of scientific, technological, cultural or artistic production in the last five years, considered most relevant by the candidate;
- b) of research activities, fundamental or applied science, developed in the last five years, considered of higher impact by the candidate;
- c) of knowledge extension and dissemination activities developed in the last five years, namely under the scope of the promotion of culture and scientific practices, deemed most relevant by the candidate.
- d) of activities of science management, technology and innovation programs, or of experience in observing and monitoring the scientific and technological system or higher education, in Portugal or abroad.

11.1 Integrated assessment of the curriculum trajectory of the candidate, based on an overview of their scientific merits, namely:

- I. overall scientific coherence of the CV – 15%
- II. diversity and quality of scientific indicators, including relevant published peer-reviewed articles and abstracts in the specific areas of announce (see point 1) - 25%
- III. participation in research projects and students supervision - 10%

11.2 Relevant experience, proved in CV, in:

- I. Development of nanotechnological drug delivery systems – 25%
- II. Experimental study in biomaterials and tissues engineering and regeneration – 10%
- III. Methodologies of skin characterization – 10%
- IV. Writing of scientific papers and projects – 5%

12. In the case of admitted candidates whose evaluation does not differ more than 10% from that obtained by the best positioned candidate, the jury will interview these candidates. This will be aimed at obtaining clarifications and explanations about the curricular elements and additional information as well as to evaluate the attitude profile and motivation of the candidate.
