6. Application can be submitted by any national, foreign and stateless candidate(s) holding a doctorate degree in Nutrition and Food Chemistry and related areas, with five years or more relevant post-doctoral experience.

In case the doctorate degree was awarded by a foreign higher education institution, it must comply with the provisions of Decree-Law no. 341/2007 of October 12th, and all formalities established therein must be complied with at the signature of work contract.

7. The tender admission general requirements are those defined in the previous point 6, and additional specific requirements are:

- 1- relevant publication record in the fields of Food Science, Analytical Chemistry and Health;
- 2- Experience regarding chromatographic methods for determination of mycotoxins in different matrices, including food and biological matrices ;
- 3- Experience in vitro models for evaluation of the impact of gastrointestinal digestion in the toxicity of mycotoxins and microbiome.

8. Pursuant to article 5 of RJEC, the selection is to be made based on the evaluation of the scientific and curricular career of the candidate.

9. Scientific and curricular career evaluation focuses on relevance, quality and up-to-datedness:

- a)** of scientific, technological, cultural or artistic production in the last five years, considered most relevant by the candidate;
- b)** of research activities, fundamental or applied science, developed in the last five years, considered of higher impact by the candidate;
- c)** of knowledge extension and dissemination activities developed in the last five years, namely under the scope of the promotion of culture and scientific practices, deemed most relevant by the candidate.
- d)** of activities of science management, technology and innovation programs, or of experience in observing and monitoring the scientific and technological system or higher education, in Portugal or abroad.

10. The five-year period mentioned above can be extended by the panel, if requested by the candidate, whenever the suspension of scientific activities is reasoned by socially protected grounds like paternity leave, long-term serious illness, and other legal situations of unavailability to work.

11. Evaluation criteria are the following:

The evaluation of the CV of the candidates, in particular the scientific merit and research experience will take into consideration the elements presented for the last five years of activity falling within the scope of the specific areas of the tender (see Point 1) and will be performed according to the following criteria:

11.1 Integrated assessment of the curriculum trajectory of the candidate, based on an overview of their scientific merits, namely:

- I.** overall scientific coherence of the CV – 15%;
- II.** diversity and quality of scientific indicators, including relevant published peer-reviewed articles, in the specific areas indicated in points 1 and 7 or demonstrating relevant technical expertise – 20%;
- III.** participation and/or coordination on research projects in the areas of food quality and safety, food contaminants – 15%.

11.2 Relevant experience, proved in CV, in:

- I.** Chromatographic analysis to evaluate human exposition to mycotoxins – 20%;
- II.** In vitro models for evaluation of the impact of gastrointestinal digestion on the toxicity of mycotoxins and on microbiome – 15%
- III.** Determination of biological markers of human exposition to mycotoxins – 15%

Only candidates who obtain a classification equal to or greater than 50% in the parameters indicated at points 11.1 and 11.2 will be eligible.

12. In the case of admitted candidates whose evaluation does not differ more than 10% from that obtained by the best positioned candidate, the jury will interview the best positioned candidate and the candidates in this situation. This will be aimed at obtaining clarifications and explanations about the curricular elements and additional information as well as to evaluate the attitude profile and motivation of the candidate.

The final score of each jury member is obtained by the following assessment: 90% scientific and curricular career evaluation and 10% interview.

13. Candidate final classification system shall be given based on a scale 0 to 100.

14. The panel shall deliberate by means of roll-call vote justified under adopted and disclosed selection criteria, with no abstentions allowed.

15. Minutes of panel meetings shall be executed and include a summary of all occurrences of said meeting, as well as of all votes casted by the members and respective reasoning, and shall be provided to candidates whenever required.

- 16.** After selection criteria application, the panel shall prepare a sorted list of approved candidates and respective classification.
