II. Overall scientific coherence of the CV - 15%

III. Diversity and quality of scientific indicators, including relevant published peer-reviewed articles and abstracts in the specific areas of announce (see point 1) - 20%

IV. Participation in research projects and students' supervision - 10%

10.2 Relevant experience, proved in CV, in:

I. Experience with cell line cultures - 15%

II. Experience in vivo studies - 10%

III. Molecular biology and biochemical assays - 10%

IV. Experience in liquid and gas chromatography using different detectors (FLD, DAD, MS) and Extraction methods from complex matrices - 10%

V. Experience in statistical analysis - 5%

Only candidates who obtain a classification equal to or greater than 50% in the parameters indicated above will be eligible.

11. In the case of admitted candidates whose evaluation does not differ more than 10% from that obtained by the best positioned candidate, the jury will interview the best positioned candidate and the candidates in this situation. This will be aimed at obtaining clarifications and explanations about the curricular elements and additional information as well as to evaluate the attitude profile and motivation of the candidate.

The final score of each jury member is obtained by the following assessment: 90% scientific and curricular career evaluation and 10% interview.

12. Candidate final classification system shall be given based on a scale 0 to 100.

13. The panel shall deliberate by means of roll-call vote justified under adopted and disclosed selection criteria, with no abstentions allowed.

14. Minutes of panel meetings shall be executed and include a summary of all occurrences of said meeting, as well as of all votes casted by the members and respective reasoning, and shall be provided to candidates whenever required.
